SUPPLEMENT

ORIGIN [REDACTED]

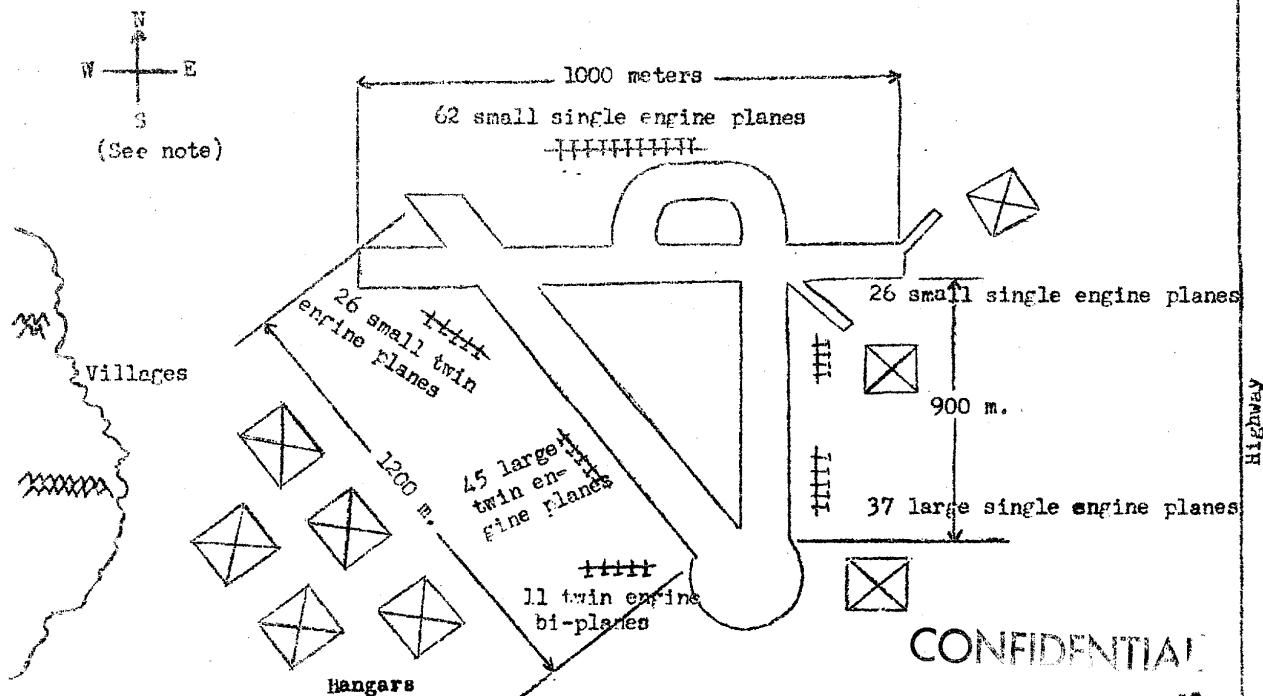

25X1X

The Soviet airfield at Choushuitzu (121-34, 38-58) is considered one of the most important on the Kwantung Peninsula. There are eight hangars and three runways, all strongly built. The field is built on high land, which eliminates the possibility of flooding. There are good communication facilities.

25X1A

Note: The direction indicator was omitted, but by comparing this map with sketches previously received, it is believed the directions are as shown. [REDACTED] for different sketches of this field.)
